**Program Activities – 2010**

**Activities and Accomplishments:**

In 2010, Counselor's Sally Burnham and Crystal Brooks received their CSAMS certification. In addition, each of the counseling staff were trained in the IRAS system with 3 members of the program becoming certified and credentiald to provide the service. We continued the use of our in-house lab arrangement and processed specimens for the Courts, the A&D Program, Drug Court and Adult Probation. W continued to provide instant test services at no cost to our local jail and continued to support and coordinate the Jail Linkage Programs between the jail, treatment providers and the court system. We continue as well coordinating volunteers for the jail self-help gorups. We also continue to serve on a variety of local committees including the Local Coordinating Council for a Drug Free Community.

We continued to offer an 8-hour Level I Basic Substance Abuse Education program and a Level II 16-hour Substance Abuse Education program as well as providing several education courses for prosecutorial diversion programs.

**Statistics:**

See attached.

**Income and Expenditures:**

Our Program had expenditures of \$486,550.04 in 2010 while garnering income of \$461,870.16. We ended the year with \$about \$59,232.00 cash on hand and \$112,963.01 in investments. We continued to support Drug Court with cash, office staff support and by fully providing for the Drug Court Lab. The latter contributes to the defecit between income and expenditures for the program. It also contributes to reducing our cash on hand operating balance.

**Certification Reviews:**

Program was re-certified for four years effective October 20, 2010.

Respectfully Submitted:

Bernard J. Burns  
MS, CADAC IV, CAADAC  
Director
