Larry Robbins, Vigo County Engineer/Highway Director, was present to give an update on the reorganization of the Engineering/Highway/GIS Departments. Mr. Robbins gave a video presentation dealing with his 5-Year Plan for Highway/Engineering/GIS. He highlighted changes and planned improvements for the Highway Department, including personnel, facilities, asset management, and vehicle/road equipment fleet. He then talked about the accomplishments of the past year for the GIS Department, their future goals and the positive impact it will have for use by other departments. With regard to the Engineering Department, he outlined the current and future projects. He pointed out that they did become a member of 811 Utility. This should help alleviate problems with projects conducted by independent contractors and also allow them to update permitting ordinances/fees. Lastly, he talked about future revenues. It will take some time to recoup the initial losses but they are now pretty much back to pre-Covid revenue rates.
